

# 6776 Pick up Hammer Mills

Finance  
Available

The pickup unit is bolted to the standard 6776 Hammer Mill and is specially designed for South African conditions. The fodder is milled and treated in one process – double handling is therefore entirely eliminated.

Unscrew the gathering unit and you have an ordinary mill. Material such as lucerne, grass, sugar cane, peanut hay, wheat straw and maize stalks can be picked up from the swath effortlessly and milled to your specifications.

**OPTIONAL:** Double cyclone or chute

Capacity with 25 mm screen

Lucerne: 11 680 kg/h

Shelled maize: 21 800 kg/h

## Staalmeester

Pickup width	1 300 mm
Width	3 200 mm
Length	1 840 mm
Weight	1 010 kg
